# Existing Outside space

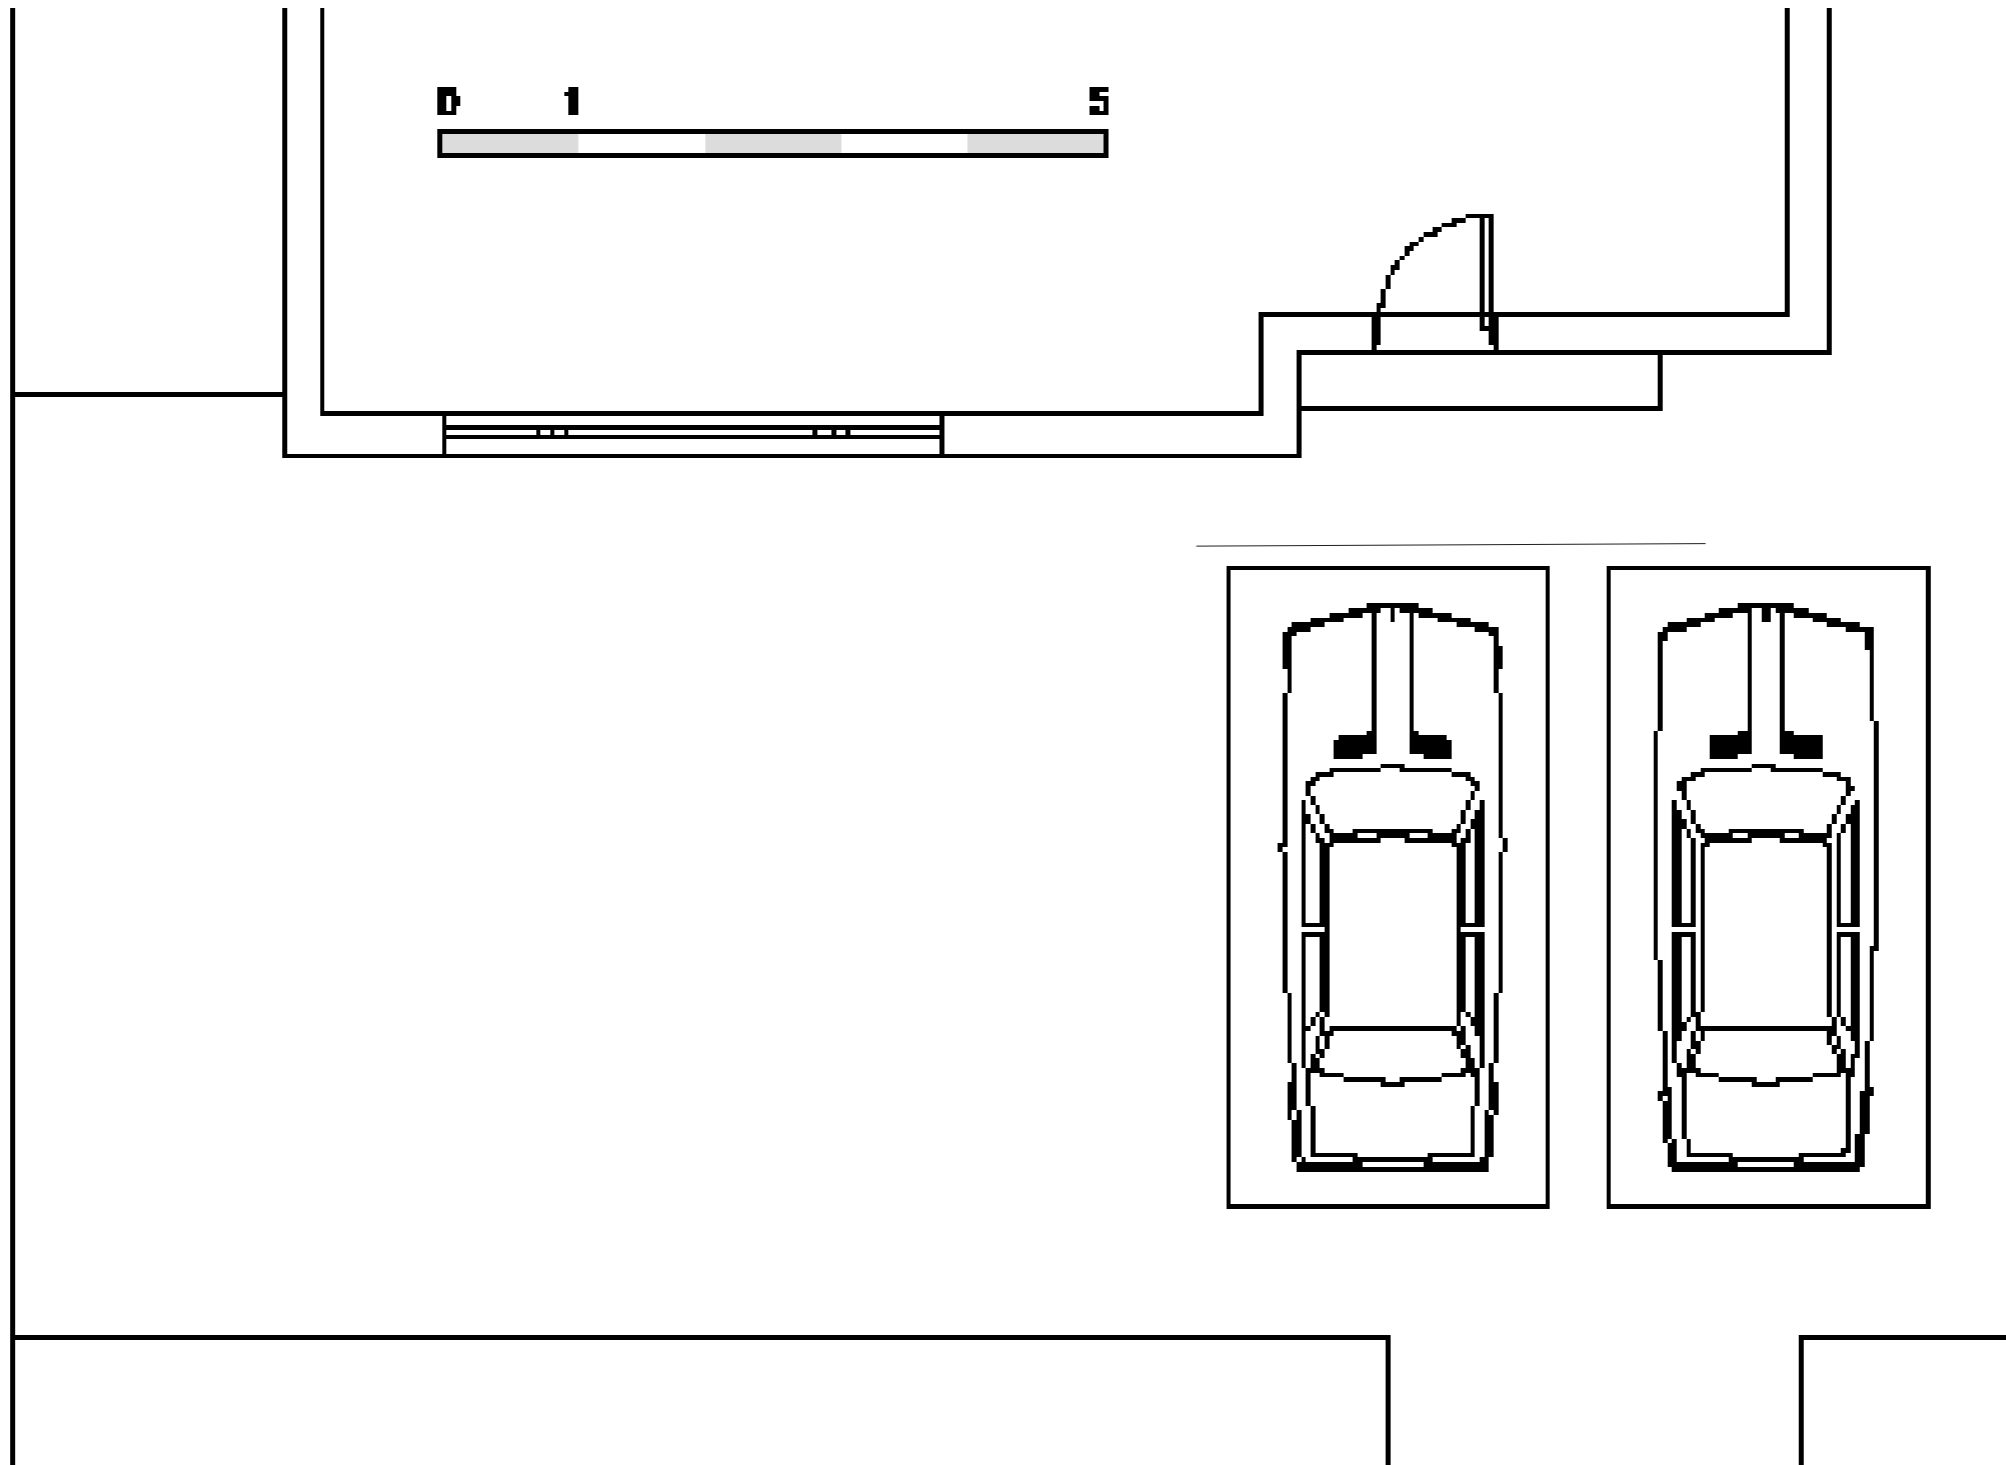

Client Programme: to add a contemporary functional front garden to an older style property, comprising parking for two cars, a secluded sitting place and a pool for waterlilies.

To retain the feeling of the Arts and Crafts period, provide strong winter structure and access around the property for maintenance. To design for security, with open sightlines to the side gates following a daytime burglary.

To update the exterior of the house.

# Plan of the property

# Inspiration gardens v2

Mien Rhuis Garden - Netherlands

Bury Court Hedges- UK

Prairie Planting - Chicago, USA

# Garden Illustration v2

Version 2:  
 Grey Stones mix with grey sub-base scalplings as you approach the front step.  
 A dark stained decking path is sunk between low yew hedges and green tall grasses.  
 A central flower garden is enclosed by vertical dark stained timber posts; a new cor-ten steel planters functions as a raised reflecting pool and focal point.
